Gifu Castle (From 2023)

Gifu Castle was once called Inabayama Castle and was the residence of Dosan Saito during the Sengoku period. In particular, the name of Gifu Castle was shown to the world in August of the 10th year of the Eiroku era (1567) (according to one theory, the 7th year of the Eiroku era). At the same time, the name of the place was changed from 'Inokuchi' to 'Gifu', and it became the home base for the unification of the whole country.
